Illuminazione
Produzione

Chi siamo

BRG Illuminazione ha il piacere di presentarvi la nuova linea Illuminazione Produzione. Questo progetto parte dalle solide basi di oltre 40 anni di esperienza per arrivare alla realizzazione di oggetti al passo con i tempi, ispirati al mondo che ci circonda. L'intento è quello di mettere a fuoco il gusto contemporaneo della vita di tutti i giorni e, grazie all'esperienza produttiva, creare nuove idee di illuminazione.

BRG illumination has the pleasure of introducing you to the new brand Illuminazione Produzione originates from the solid foundation of over forty years experience leading to the achievement of articles in keeping with the times and inspired by the world that surrounds us. The objective is to focus on contemporary taste of everyday life and, thanks to production experience, to generate new ideas in lighting.

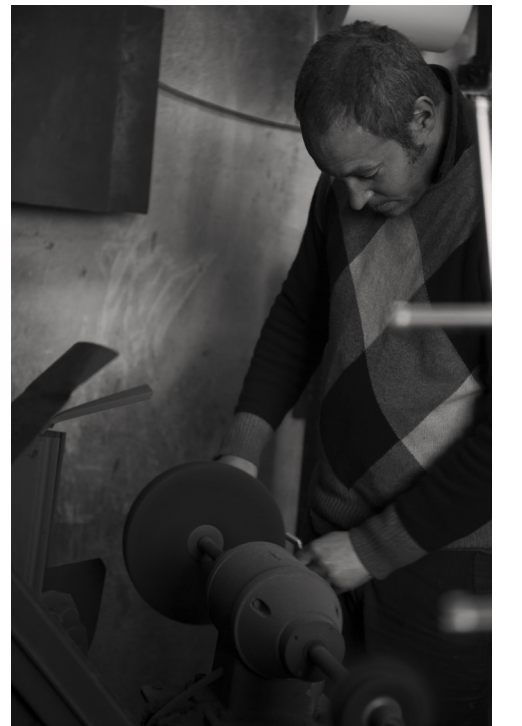

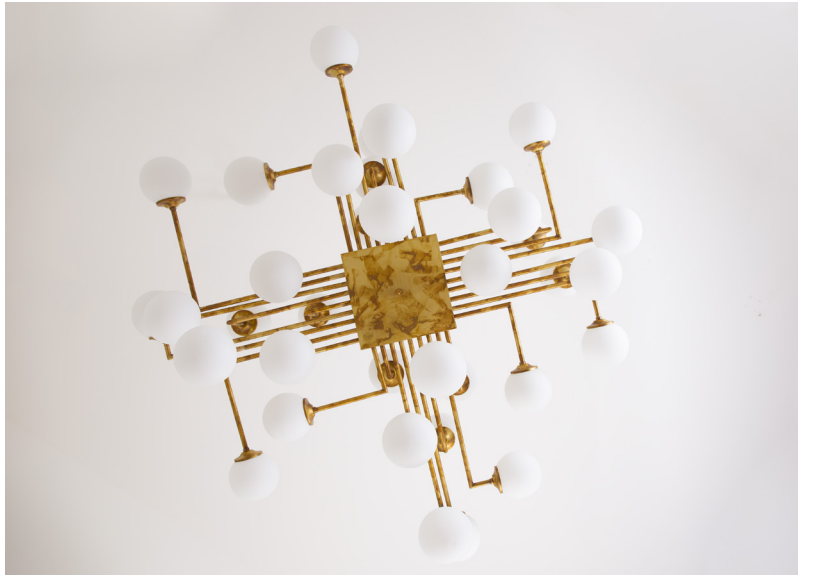

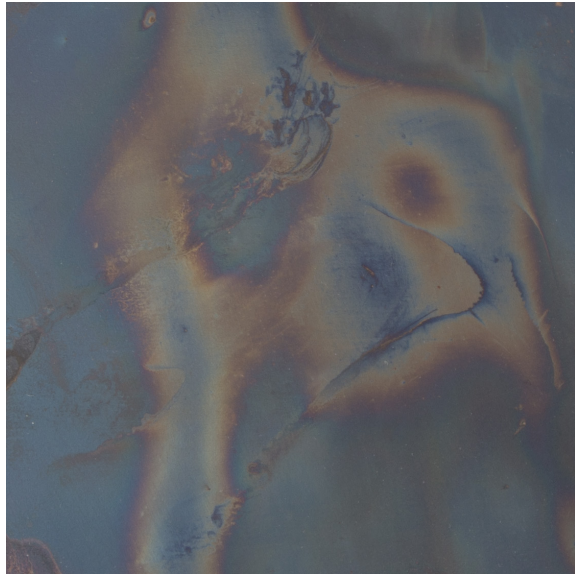

Illuminazione Produzione

Noi, giovani ragazzi della seconda generazione di BRG Illuminazione, vi proponiamo un nuovo progetto ispirato alla leggerezza ed alla funzionalità dei nostri tempi. "Nati e cresciuti nel mondo dell'illuminazione" abbiamo spinto l'esperienza produttiva e costruttiva della nostra azienda verso tendenze ed esigenze in linea con il mondo che ci circonda. Illuminazione Produzione vuole essere una nuova esperienza che si pone come obiettivo primario quello di dare spazio alle idee e alle sensazioni che abbiamo nel vivere la vita di tutti i giorni. Con le nostre realizzazioni vogliamo farvi respirare la tradizione dei materiali, assaporare l'originalità dei nostri tempi e toccare con le vostre mani questi oggetti artigianali, "fatti dalle persone", sicuramente unici nel loro genere.

"La vita è troppo breve per essere illuminata con lampadari banali"

We young boys, second generation of BRG Illuminazione, propose a new project inspired by to-day's weightless functionality. "Born and bred in the world of lighting" we have driven the productive and constructive experience of our company towards and demands consistent with the world around us. Illuminazione Produzione wishes to present a new experience which has, as its primary objective, the desire to give voice to the ideas and sensations we share in everyday life. With our accomplishments we want to let you participate in the tradition of the materials used, to have you be aware of the originality of our time and to physically touch these handicrafts created by artisans whose work is unique in itself.

"Life is too short to buy boring lamps"
